CONNECTING YOUR BANK WITH THE WEB SOLUTIONS YOU NEED

At CBAI, we believe your bank's digital presence should be as secure as your vault. In an era of evolving cyber threats, your website is more than just a portal—it is a cornerstone of the trust and credibility you build with your customers every day.

That's why our web hosting isn't a "one-size-fits-all" solution. Designed specifically for the unique demands of the banking profession, our infrastructure is powered by AWS secure cloud solutions and managed by the experts at LRS. We provide the "always-on" resilience your bank requires, backed by 24/7 support, proactive threat recognition, and rigorous quarterly vulnerability testing.

We are committed to the highest standards of safety and soundness. Our hosting environment is SOC 2 certified and adheres to all security standards, ensuring your bank's website remains compliant and protected.

COMPLIANCE & SECURITY

At CBAI, compliance and security aren't just features—they are our highest priority. We design every hosted service to meet the rigorous standards required by the banking industry, ensuring your data and reputation remain protected.

SECURE DNS & DOMAIN SECURITY

Experience peace of mind with CBAI's Managed DNS Hosting. Built on Amazon's Route 53 infrastructure, our network delivers lightning-fast resolution with built-in, multi-layered redundancy. We eliminate the burden of disaster recovery management by ensuring your domain remains resilient and reachable at all times.

.BANK DOMAINS

CBAI's hosting services are designed to meet the rigorous .bank security requirements, including DNSSEC and TLS, ensuring your institution remains compliant with fTLD standards. Whether you are moving an existing domain or starting from scratch, CBAI can assist you with .bank. fTLD provides a "Switch Kit" to bridge the gap between registration and your live, secure website.

CONNECTING YOUR BANK WITH THE WEB SOLUTIONS YOU NEED

WEBSITE DEVELOPMENT AND WEBSITE MAINTENANCE SERVICES including CMS

Banks looking for a developer to enhance or redevelop their website? CBAI can provide you with developers for both Linux and Windows websites. Development costs are not included in hosting packages.

.BANK DOMAINS

CBAI's hosting services are designed to meet the rigorous .bank security requirements, including DNSSEC and TLS, ensuring your institution remains compliant with fTLD standards. Whether you are moving an existing domain or starting from scratch, CBAI can assist your bank with the purchase and set up of .bank. fTLD provides a "Switch Kit" to bridge the gap between registration and a live, secure website.

Purchasing and Migration Assistance: If you do not yet own a domain, CBAI assists with the purchase and renewal process through fTLD-approved registrars such as EnCirca or 101domain.

Migration: For banks already owning a .bank domain, the transition from .com, CBAI can be handled for \$185, including on-boarding to CBAI's hosting secure environment.

Placeholder Pages: If your full site isn't ready, your developer can provide or CBAI can develop a "placement page" to announce your upcoming security protections to customers.

SECURE DNS

Beyond basic connectivity, DNS servers act as a security layer by filtering malicious content, blocking phishing, and encrypting queries to prevent tracking. We utilize industry-standard protocols—including SPF, DKIM, DMARC, and DNSSEC—to ensure maximum protection. Secure DNS is included in hosting packages or as a standalone service, with a discounted rate of \$300 for CBAI Member banks.

AUDIOEYE ADA COMPLIANCE & ACCESSIBILITY

Real user monitoring technology in the industry that runs for every user, ensuring fixes in real time. Works with both Linux and Windows websites. **CBAI Members receive a 30% Discount – Total cost \$495 a year. Hosted Websites pay \$459.**

EMAIL SERVICES FROM CBAI
