

Community Bankers Association of Illinois

One Mission. Community Banks.®

Dear CBAI Member,

Information continues to flow regarding the Paycheck Protection Program (PPP). The one thing we all know for sure is that it is not working the way it is supposed to work. Many of you are unable to access sites, upload applications, or even communicate with the SBA with questions or to get your lender application approved. In an attempt to get you the most current information, we have we have put together some additional resources. We are still waiting on the further guidance regarding the development of a portal, but we will forward all new guidance and information as we get it. [Here's the Latest Press Release from the U.S. Department of Treasury.](#)

Update on SBA Program

We've heard about the E-Tran security request issues. Here's what we are doing NOW to improve this while preserving IT infrastructure security.

1. SBA is running a script to enable all lenders that previously had an account with CAFS (Capital Access Financial Systems, the portal to E-Tran), to be automatically reactivated.
2. Any NEW users still must go through the security protocol to receive a user ID and password. That protocol can be found at this link.
